

- **Fully working / programmable**
- **2 loop system**
- **Networkable**

Training / demonstration case complete with repeat annunciator

Description

The dual purpose VL-DEMO is designed to be used as a fully working training case and a portable demonstration case.

The VL-DEMO is extremely tough and durable and comes ready to use, perfect for company personnel to be fully trained by on by one of our certified training instructors.

With the VL-DEMO you can also take the sophisticated, modular Velocity Detection system to your customers easily and efficiently.

The great thing about the case is the main panel is laid out exactly as you would expect to see it inside the VL-MMP/10/64 Velocity 10 Port Control Panel.

Case Contents

- 1 x VL-MMP/10/64 Velocity MMP/10 UL Control Panel (Red) w/ 64 Zone LED Expansion
- 1 x VL-MMP/RA Velocity Remote Annunciator Panel – Fully networkable
- 2 x VL-SLC Signalling Line Circuit Module - each module can support up to 254 devices
- 1 x VL-NCB Notification Appliance Circuit Module - Class B
- 1 x VL-NWM Network Module - (Required for panel networking - RS485 data communication)
- 1 x VL-ZMB Zone Monitor - Class B
- 1 x VL-MRM Multi Relay Module - Form C
- 1 x VDOT-DIP-SCI Dual Input Module with Short Circuit Isolator
- 1 x VDOT-DOP-SCI Relay Dual Output Module with Short Circuit Isolator
- 2 x VDOT-PY Addressable Optical Smoke Detector
- 1 x VDOT-H2 Addressable Heat Detector Head (Rate of Rise & Fixed Temperature 135°F (57°C))
- 1 x VDOT-PYH Addressable Multisensory Detector Head (Smoke & Heat)
- 1 x VDOT-DPH Addressable Dual Optical/Heat Detector Head
- 1 x VDOT-42SK2 Addressable Single Action Pull Station for Fire Alarm, SPST

Case Features

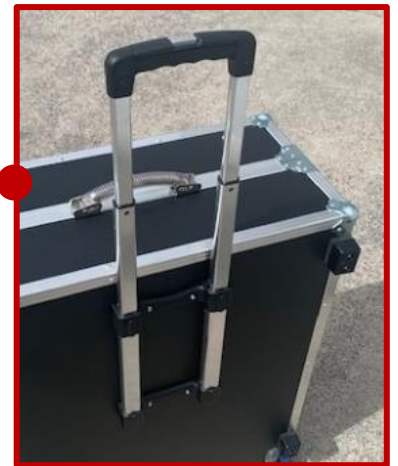

- Allows full and comprehensive training to be undertaken and completed
- Allows the user to create simple faults to diagnose and create real alarm scenarios
- Allows the user to setup a network and also create simply cause and effects

Strong Carry Handle

2 x Tough & Durable Keylocks

Retractable, Telescopic Handle

2 x Heavy Duty Wheels

Case Dimensions

Case Height: 70 cm
Case Width: 60 cm
Case Depth: 26 cm

**Included – UK mains power lead
